New varieties 2023

Astrantia is a genus with many type of flowers with white, pink or red colors. The flowers are surrounded by striking bracts and stand on long stems above the leaves.

ASTRANTIA

MAGICAL® DIAMONDS PINK

Zachtroze Aстранtia met lange stevige stelen.

Soft pink Aстранtia with long sturdy stems.

MAGICAL® DIAMONDS RED

Grote dieprode bloemen met donkere nuances.

Large deep red flowers with darker tones.

MAGICAL® DIAMONDS SOFT PINK

Door zijn wit, roze en groene tinten in de bloemen, is deze Aстранtia op vele wijzen toe te passen.

With shades of white, pink and green in its flowers, this Aстранtia is very versatile.

MAGICAL® MELINDA

Zeer productief ras met roze bloemen en rechte, stevige stelen.

Very productive variety with pink flowers and straight, sturdy stems.

MAGICAL® RED

Rode bloemen met rechte, stevige stelen.

Red flowers with straight, sturdy stems.

MAGICAL® SNOWFALLS

Mooie witte bloemen met een zachte groene tint.

Beautiful white flowers with a soft green hue.

Cotinus, alias smoke tree is a very hardy ornamental shrub that derives it's name from the rosy, furry flower heads. The leaves are smooth and purple, in the autumn reddish.

COTINUS

MAGICAL® PURPLE

De verbeterde versie van de reeds bekende Royal Purple. De plant groeit met kaarsrechte takken en het blad is donkerder van kleur. Zeer goed vertakkend.

The improved version of the already well-known Royal Purple. The plant grows with straight branches and the leaves are darker in color. Very good branching.

DELPHINIUM

MAGICAL® ANNA

Een zeer intens blauwe bloem met een wit hart. Een zeer fraaie Delphinium.

A very intense blue flower with a white centre. A very beautiful Delphinium.

All our Eryngium varieties are healthy and have a large harvest production. In the meantime, our range has been expanded with special varieties. Here are some of our special additions to our Eryngium selection.

ERYNGIUM

MAGICAL® WHITE LAGOON

Zeer bijzondere bijna lichtgevend witte distel, die ook verrassend is in het groene stadium.

Very special almost luminous white thistle, which also looks amazing in the green phase.

MAGICAL® SILVER GLOBE

Sterke gezonde eryngium, lijkt op Green Globe echter met langere stelen en iets hogere en latere productie. Bloemen zijn meer zilver van kleur.

Strong vigorous eryngium, resembles Green Globe but with longer stems and slightly higher and later production. Flowers are more silver in colour.

MAGICAL® RED THUNDER

Zeer exclusieve Eryngium met zeer grote rode bloemen. Indrukwekkend grote takken tot wel 2 meter.

Very exclusive Eryngium with huge red flowers. Impressively large branches up to 2 metres.

MAGICAL® EXPLOSION

Zeer sterke en decoratieve distel met warmrode bloemen. Deze distel heeft meer weg van een Sanguisorba dan van een distel.

Very strong and decorative thistle with warm red flowers. This thistle looks more like a Sanguisorba than a thistle.

ERYNGIUM MAGICAL® SILVER GLOBE

Cut Hydrangeas are usually grown in the Netherlands under controlled conditions. The flowers are very popular. The 'Magical' cut Hydrangeas come in many beautiful colors. When conditions are ideal they take on the most wonderful 'classic' colors. The 'classic' colored flowers have an exceptionally long vase life! For successful cultivation, you require the right advice and be informed professionally about which varieties are most suitable for your circumstances. Some varieties are also suitable for outdoor cultivation in Europe. However, if you want the 'classic' flower you definitely require a dry climate.

HYDRANGEA

MAGICAL® SNOWFLAKE

Hagelwitte, harde bollen op een tak met donkergroen blad. Deze Hydrangea is indrukwekkend sterk. De bol kleurt door naar zachtgroen.

Bright white, hardy flower heads on a branch with dark green leaves. This hydrangea is impressively strong. The flower changes color to soft green.

MAGICAL® RUBY GLOW

Een prachtige rozerode bol met subtiele witte bloembladrandjes. Hierdoor valt de bloem extra op. Geblauwd wordt de kleur zeer intens en opvallend paars.

A beautiful pinkish-red flower head with subtle white petal edges. This makes the flower stand out even more. When it turns blue, the color becomes very intense and striking purple.

MAGICAL® LINN

Een stevige roze bol met witte randen, waardoor de kleur een speels effect krijgt. Indien geblauwd kleurt het roze paarsig op.

A strong pink flower head with white edges, giving the color a playful effect. When blueing, the pink colour changes to purple.

MAGICAL® SWEET RUBY

Grote stevige oudroze bollen met donkergroen blad.

Large sturdy dusty pink flower heads with dark green leaves

The 'Magical' varieties of Hypericum have very quickly won a valuable place on the international market. As well as the beautiful berry colors, the range is known by a very healthy growth, a high rust tolerance and often even rust resistance. Various world-wide investigations have proven that these varieties of Hypericum are belonging to the healthiest.

HYPERICUM

MAGICAL® EXCELLENT

Grote olijfvormige bessen in warm bruinrode kleur. Zeer lang te oogsten.

Large olive-shaped berries in warm brownish-red color. Very long time to harvest.

ILEX

MAGICAL® SUPREME RED

Verbetering van de Ilex vert. Oosterwijk. Betere zetting en rechte takken.

Improvement of the Ilex vert. Oosterwijk. Improved setting and straighter branches.

These varieties have a very long harvesting time and by choosing correctly one can spread the harvest over more than four months. All varieties can be successfully coldstored.
